BJP RULES FOR CHAMPION GIRL/LADY PERFORMANCE WEAR & LEOTARDS

JUNIORS (5-12 Years)

1. Girls may wear any BJP leotard of their choice provided they are purchased through the BJP supplier Danz Design (Aust) Pty Ltd and have the BJP logo on them. Girls are also permitted to wear a BJP Team leotard.

SENIORS AND LADIES (13 Years & Over)

Girls 13 years and older may wear any of the following provided they are purchased through the BJP supplier Danz Design (Aust) Pty Ltd. and have the BJP logo on them:

1. BJP leotards of their choice or BJP Team leotards or Team Outfits.
2. BJP Performance Wear tops and leggings.
3. BJP Leotard of their choice with BJP performance wear leggings.

NOTE: BJP Rules state that Members may wear bare legs, light-tan colour tights/stockings or Performance Wear leggings. If tights/stockings are worn underneath BJP leggings, they must not be visible past the point where the leggings finish - ie. the leg and foot must be bare below where leggings finish. Undergarments of any type must not be visible.

Warning to Associates & Secretaries: Copying of BJP leotards, BJP performance wear and/or the BJP logo infringes BJP patent and members wearing incorrect leotards risk disqualification.

DANZ DESIGN SIZING CHARTS AND SIZING GUIDELINES FOR LEOTARDS & PERFORMANCE WEAR

There are 3 separate measurements charts to assist with sizing:

1. TEAM LEOTARD MEASUREMENT CHART
2. UNLINED COMPETITION LEOTARD & PERFORMANCE WEAR MEASUREMENT CHART
3. LINED COMPETITION LEOTARD & PERFORMANCE WEAR MEASUREMENT CHART.

These charts are set out below. They are also available on our **website** under "BJP Sizes" and in the **tryon box** booklet.

Please note that our sizing chart and recommendations are a guide only and will address the majority of sizing situations. If sizing advice is required, the staff at Danz Design are more than happy to assist:

GENERAL SIZING GUIDELINES:

- The leotards and the performance wear tops and leggings in the tryon box and in the Danz Design store should be used primarily as a guide for **style NOT size**. Due to the large number of people trying them on, they become significantly stretched. Please tell your members this.
- The new ordered leotards and performance wear garments will be a firmer fit than the tryon garments.
- The cut of the leotard/performance wear top also affects the fit. For example, a style with thin straps will be less restrictive than a style with more fabric around the arm and shoulder.
- When a garment is lined, the stretch is reduced by approximately 2/3 in both directions as compared to an unlined garment.
- Allow for possible growth. You may want to go up a size for children who are still growing and whose measurements fall towards the end of a size range.
- Remember – a garment that is slightly too large can be adjusted, but a garment that is too small cannot!

LEOTARD SPECIFIC SIZING GUIDELINES:

- All members must provide their **body girth measurement** when ordering individual competition leotards.
- The body girth measurement is the most important measurement to determine your size, particularly with lined leotards. See below for instructions on how to take this measurement.
- If your measurement falls comfortably within a size range, then that size is appropriate.
- If your measurement falls in the top end of a size range, then we recommend going up a size.
- If you are sewing in your own body stocking, then allowance needs to be made for this.
- For both lined and unlined leotards, if the body girth measurement falls into a higher size range than your other measurements, ie you have a long torso, then the higher size would be recommended.

PERFORMANCE WEAR SPECIFIC SIZING GUIDELINES:

Long performance wear tops:

- the long performance wear top styles are designed for a slightly relaxed fit around the bust, waist and hips when compared to a leotard. The length fit of the top will vary depending on a person's torso length, but will generally sit around the low hip.
- it is a matter of personal choice as to how firm or loose members wish their tops to be. However, if they are excessively loose then they will not sit correctly and gape when performing the syllabus.

Size recommendation for long tops:

- if measurements fall comfortably within a size range then that size would be appropriate for a more relaxed fit.
- if measurements fall in the **top end** of a size range, then we recommend going up a size if a relaxed fit is required (or choose that size if you prefer a firm fit).
- If one or more of either the bust, waist or hip measurements fall within a larger size than the other measurements then we recommend ordering the larger size.
- Remember – lined tops will have less stretch than unlined tops.

Fitted crop and waist length performance wear tops:

- the fitted crop and waist length performance wear top styles are designed for a firm fit similar to leotards. Again, the length fit of the top will vary depending on a person's torso length, but will generally sit just on or just above the waist for waist length tops and under the bust for the crop top.
- The bust and waist measurements are the key to determining correct sizing.

Size recommendation for fitted crop and waist length tops:

- if bust and waist measurements fall comfortably within a size range then that size would be appropriate.
- if bust and waist measurements fall in the **top end** of a size range, then we recommend going up a size.
- Remember: **lined tops will have less stretch than unlined tops.**

Performance Wear Leggings:

The performance wear leggings styles have the following features:

- high waist
- triangle gusset
- flatlock seams (new in 2020) for added strength and durability
- available in 2 lengths:
 - ankle length; and
 - 7/8 length (9cm shorter than ankle length)

The waist and hip measurements are the key to determining correct sizing.

Size recommendation for performance wear leggings:

- if waist and hip measurements fall comfortably within a size range then that size would be appropriate.
- if waist and hip measurements fall in the **top end** of a size range, then we recommend going up a size.

How to take the body girth measurement

The girth measurement is taken by beginning at the centre of the right shoulder and extending the tape measure down over the bust, through the crotch and up the back to the starting point.
